Curriculum

This program also includes relevant lectures and cultural workshops as well as many opportunities to interact with Tohoku University students.

For TUJP Online: Most of the content will be delivered by real-time sessions. You will have many opportunities to interact with instructors and other participants.

TUJP

Japanese Language Lessons

TUJP provides students with intensive Japanese language classes to develop their communication skills efficiently, focusing on a variety of interesting topics in everyday life. You will acquire the linguistic and cultural knowledge needed for getting around Japan and carrying out casual conversation with native Japanese speakers.

Lessons on Japanese Culture & Society

You can learn about various aspects of Japan through lessons on Japanese culture and society.

In addition to the class hours, students will be required to study outside of class for assignments and group projects etc.

Collaborative Learning & Interaction with Tohoku University Students

Opportunities for International Collaborative Learning. You can gain diverse perspectives and communication skills by working with Japanese and international students from different backgrounds in intercultural collaborative learning classes.

TUJP Buddy Program TUJP

The "TUJP Buddy Program" will run online during this program. Each TUJP student will be matched with one or two local Japanese "buddy" students for cross-cultural exchange and interaction. We believe that current students can help TUJP students by sharing their experiences, providing insights into university life, and responding to questions and concerns. It's also a great way to make friends and practice Japanese!
