Academic Requirements B)¼0[ó

Exchange students with excellent academic performance are expected to be nominated. Generally, this means having a 3.0 GPA on the 4.0 scale; upper second-class in the UK's undergraduate honors grading system; a B in ECTS grading scale; or 80-85% in Chinese and Korean universities in the current degree program at their home university.

4. Program (iExPO, OUSSEP, FrontierLab, Maple)

iExPO

iExPO students will be placed in a school/faculty/graduate school/research institute at Osaka University to take courses in a specific major or do graduate research under the guidance of a faculty member. Since the majority of degree courses are taught in Japanese, participants need to have a high level of general Japanese language proficiency. If there are many applicants for the program, document screening may be conducted.

For graduate students who wish to do full-time research work, you need to find your preferred academic supervisor from the website of "OU academic schools and fields of study" below and list the his/her name on the application form. When you couldn't find a supervisor, we may reject your applications.

Students who wish to do full-time research work in science and technology fields are recommended to apply for FrontierLab.

FrontierLab

FrontierLab is a unique, long-term exchange program that functions as an academic internship in science and technology. Participants will become student members of a research group in one of Osaka University's internationally renowned science and technology fields and do full-time research work under the academic supervision of a faculty member. It is strongly recommended that students receive informal acceptance from a prospective supervisor. Please find the prospective supervisor by the link below.

OUSSEP

This program is designed for undergraduate students in their 3rd or 4th year from overseas partner universities across the globe. Participants are offered Japanese language classes and lecture courses taught in English called "International Exchange Subjects" which consist of liberal arts courses offered by various school of Osaka University. No postgraduate courses are offered within this program, however we will consider to accept postgraduate students only if home university approves undergraduate level courses as appropriate to take. Please note that since OUSSEP is designed for undergraduate students, post graduate students will be awarded "OUSSEP Participation instead of "OUSSEP Completion". Furthermore, graduate students cannot participate in field trips, which are required for completion for OUSSEP program.

Find International Exchange Subjects: https://ciee.osaka-u.ac.jp/en/short-term_programs/exchange_programs/syllabus/

Please note the following:

- Independent Study and Internship Course in OUSSEP are optional and required to be approved by program committees. There is no guarantee that students can register these courses according to the result of arrangement.
- In principle, withdrawal from the Independent Study and Internship Course after your exchange program started is unacceptable. Please consider it carefully.

Maple (Available only in Sep. intake)

The Maple Program is designed to help, in principle, 3rd year or higher students improve their Japanese language skills as well as enhance their knowledge of Japanese culture and society, moving them further towards their own academic goals. Moreover, it aims to cultivate individuals who deeply understand Japan from various perspectives by giving students the skills to compare and to contrast Japanese language, culture, and society with their own, and then share that knowledge widely.

Scholarships á Û5

Osaka University offers a certain number of scholarship positions (JASSO / OU) to our incoming exchange students. The number of awards greatly varies by year and admission cycle depending on the available fund. There are no scholarships for which exchange students can apply after they arrive in Japan. As the number of scholarship award is decreasing every year and only for limited number of students, you should make an appropriate financial plan without scholarship. For April intake, the scholarship notification tends to be as late as
